

Serial No. 09/890,741

**In the Specific**

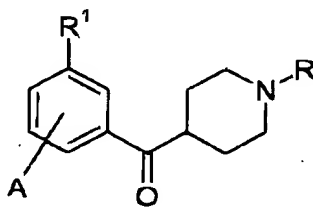

Please amend the Specification to insert a new first paragraph, immediately following the title, to claim priority under 35 U.S.C. §119(e), as follows:

"This U.S. national stage application of International Application PCT/US00/02502, filed September 2, 2000, claims priority to U.S. provisional application Serial Number 60/119596, filed October 2, 1999."

Please further amend the Specification to insert a new last page with an abstract of the disclosure as required by 37 C.F.R. 1.72(b) as presented below. It is noted that this abstract is same as that submitted with the International Application as filed.

ABSTRACT

The present invention relates to a compound of formula I and a process for making:

I:

or a pharmaceutical acid addition salt thereof; which are useful for activating 5-HT<sub>1F</sub> receptors and inhibiting neuronal protein extravasation in a mammal.
